# TRANSFUSION & INFUSION

## Option Available with features

- With or without Air vented
- With or without Needle
- With or without Y connection
- With or without Luer Lock
- Latex or latex free
- Tube length : 150 cms 180cms, 200cms (Super Smooth Kink resistant)
- Clear, Transparent & Flexible Drip, easy piercing Spike and smooth Roller Clamp .with 1.2 Or 0.2 Micron in line filter.
- Size: Adult, Child • ETO Sterile, Disposable, Individually packed

## Intravenous Transfusion Sets

- Prima-Eco (With plain latex & non vented)
- Prima-DLX (With Bulb Latex & non vented)
- PrimaVan (With Bulb latex & vented)
- PrimaCon (With Bulb Latex, Non vented & Micro Drip)
- PrimaSafe (With Y connector & Non vented)
- Prima Flow (With Y connector, Luer Lock & vented)

## Blood Transfusion Set

- Blouden-Eco ( with single chamber, bulb late, Non vented)
- Blouden-Dlx ( with Double chamber, bulb latex, Non vented)
- BlodeinCure (with single chamber, bulb latex, vented, luer Lock)
- BlodeinFlow ( with Double chamber, bulb latex, vented, luer Lock)

## Option Available with features

- With or without Air vented
- With Double Chamber or Single Chamber
- With or without Needle
- With or without Y connection
- With or without Luer Lock
- Latex or latex free
- Tube length 150 cms ,180crns, 200cms (Super Smooth Kink resistant)
- Clear, Transparent & Flexible Drip, easy piercing Spike and smooth Roller Clarnp .with 1.2 Or 0.2 Micron in line filter.
- Size: Adult, Child
- Sterile, Disposable, In diyidua l ly packed

## Measured Volume Set

- Super Smooth Kink resistant tubing ensure unifold rate
- Clear, Transparent & Flexible rmeasured volume Drip Chamber, easy piercing Spike
- Smooth Roller Clamp. Micro drip 60 ml per ml
- With or without Air vented
- With or without Needle
- With or without Y connection
- With or without Luer Lock
- Latex or latex free
- Tube length : .0 cms , 180cms, 2.ms
- Size: 110 mi ,150 ml
- Sterile, Disposable, Individually packed

## Extension Tube

- Super Smooth Kink resistant tubing ensure unifold rate
- Male Luer lock connector at one end and female Luer lock connector at other end
- Tube length in CM:10,25,50,80,100,150,200,500
- With or without Y connection
- With or without clamp
- Customized inner & outer diameter
- Sterile, Disposable, Individually packed

## Three Way Stopcock

- For multiple infusion
- Fully transparent polycarbonate body for visualization of flow
- 6% luer taper as per international standard
- Arrow indication marks for indicating direction of flow
- Also available with lipid resistance features
- Rotating dead space for accurate drug admin.
- Continuous flow channels, tight covers for all ends.
- Pressure tested hydrostatically for up to 60 PSI
- Rotation allowed for 360 degree.
- With or without extension tube available  
(Tube Length in cm : 5,7,10,25,50,80,100,150,200,500)
- Sterile, Disposable, Individually packed

## Scalp Vein Set

- Designed to provide rapid venous access with greater patient comfort during infusion. Butterfly set for long term infusion.
- Butterfly is connected to soft non toxic, non-irritant, medical grade tube which does not kink or coil set.
- Butterfly shaped wings facilitate easy handling and attachment with the skin.
- Short beveled siliconized needle facilitates atraumatic cannulation and thin wall needle provide better flow rate per gauge.
- The proximal end of the set is provided with flexible female luer fitting With or Without Luer Lock
- Steele, Disposable, Individually packed
- Size G: 18,19,20,21,22,23,24,25

# UROLOGY

## Urine Bags

- Nuevo - Eco (without Hook & Hanger)
- Nuevo- Dlx (with Hook & Hanger)
- NuevoFlow (with Measured Volume set)
- Nuevo-Standard (with Hook, Hangar & NRV)

## Option Available with features

- Urine drainage system for short as well as long term use.
- Super Smooth Kink resistant tubing with universal tapered connector
- Specially designed hook or hanger for carrying
- Efficient non return valve prevent the back flow.
- Drainage outlet system.
- Transparent sheet allows visual inspection. Bag graduated in ml to indicate the quantity of urine collection.
- With hanger or without hanger
- With or without Measured Volume set
- With or without T Type, Screw Type or Push Pull type bottom outlet
- Tube length :-85,90,100,120,150cm
- Site 100 ml , 200m1(Peadia), 50Ornl,1000m1, 1500m1, 2000m1 (Adult)
- Sterile, Disposable, Individually packed

## Foley Balloon Catheter

- Foley Balloon Catheter Latex ( 2 way & 3 way)
- Foley Balloon Catheter 100% silicon ( 2 way 8, 3 way)

## Male External Catheter

- Manufactured from pure latex for soft and gentle feel
- Male catheter is specially designed for urine incontinence for day and night use in male patients.
- Provide with self-adhesive coated strip for proper fixing on to the penis.
- Proximal end is designed for easy connection to urine bag, making it simple to use.
- Size in MM:- Small ( 20 ) , Medium (25), Large ( 30 ) ,Extra Large (35)
- Sterile, Disposable, individually packed

## Female Catheter

- For Smooth term bladder catheterization through the urethra in females.
  - Super Smooth Kink resistant tubing
  - Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage
  - Frozen surface tubing for smooth intubation.
  - Proximal end is fitted with universal funnel shaped connector for extension
  - X-ray opaque line provided throughout the length of catheter
  - Length 20 cm
  - Size FG : 6,8,10,12,14,16,18,20,22,24
  - Sterile, Disposable, Individually packed
- 

## Rectal Catheter

- For introduction of enema solution into rectum to release /aspire rectal fluid
- Super Smooth Kink resistant tubing ensure uniflow rate
- Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage
- Length :- 40cm • Size FG 18 TO 36 (18, 20, 22, 24, 26, 28, 30, 32, 34, 36)
- Sterile, Disposable, Individually packed

## Urethral Catheter

- For Smooth term bladder catheterization through urethra
- Super Smooth Kink resistant tubing
- Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage
- Frozen surface tubing for smooth intubation.
- The proximal end is fitted with universal funnel shaped connector for extension
- X-ray opaque line provided throughout the length of catheter
- Length:- 20crn
- Size FG: 6, 8, 10, 12, 14, 16, 18, 20, 22, 24
- Sterile, Disposable, Individually packed

# ANAESTHESIA & RESPIRATORY CARE

## Oxygen Catheter

- Super Smooth Kink resistant tubing ensure uniflow rate
- Frozen surface tubing for smooth intubation
- Proximal end is fitted with universal funnel shaped connector for connection to oxygen source.
- Suitable for direct administration of oxygen via nasopharyngeal route. Open distal end with multiple lateral eyes.
- Length :40 cm • Size FG 6 TO 24 (6, 8, 10, 12, 14, 16, 18, 20, 22, 24)
- Sterile, Disposable, Individually packed

## Oxygen Mask

- Suitable for convenient oxygen therapy .elongated face mask for long term use.
- Adjustable elastic strip and integrated nose clip for proper positing of mask. Proximal end of tube is connected with funnel shape connector for easy connection with oxygen sources.
- Type:- Variable concentration mask (Swivel Connector) and High Concentration Oxygen mask (with Reservoir)
- Tube Length:- 210cm • Size:- Adult, Pediatric & Neonatal
- Sterile, Disposable, Individually packed

## **Nebulizer Mask (Aerosol therapy mask)**

- Specially designed nebulize chamber with nebulization rate of approximately 3cc in 10 minutes.
- Average particle size generation is approximately 2 micron,
- 210cm long star lumen tubing to ensure continuous flow of oxygen.
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen sources.
- Complete Kit consist of :- Nebulizer Mask , Nebulizer Chamber, and 201 cm long star lumen tube.
- Size:- Adult ,pediatric
- Sterile, Disposable, Individually packed

## **Breathing Filter (HME)**

- Breathing filter is used in respiratory support equipment such as life support and human ventilation machine, fitted in the airway between equipment and patient.
- The HME keeps moisture retention and warming of inhaled air, filter design in different size with Cot monitoring port, and facilitate use one wider range of patients.
- Flow rate 30L/minute at pressure 0.2mpa
- Filter efficiency:- greater than 95%
- Minimum tidal Volume:-150 ml
- Size:- Adult ,pediatric
- Sterile, Disposable, Individually packed

### **Suction Catheter (Endo Bronchial)**

- Super Smooth Kink resistant tubing ensure uniflow rate
- For removal of secretion from trachea and bronchial region.
- Atraumatic, soft rounded, open distal end with one lateral eye for non-traumatic insertion.
- Type-Plain, Thumb Control with stopper and Finger Tip
- Length :- 50cm • Size FG 6 TO 24 (6, 8, 10, 12, 14, 16, 18, 20, 22, 24)
- Sterile, Disposable, Individually packed

### **Guedel Airway (Oro-Pharyngeal Airway)**

- Suitable for maintaining an unobstructed oropharyngeal airway during general anesthesia and in unconscious patients
- Bite block to prevent biting of tongue and airway occlusion.
- Rounded atraumatic edges.
- Smooth airway path for easy cleaning
- Size 000, 00, 0 ,I, 2, 3, 4, 5
- Sterile, Disposable, Individually packed

### **Twin Bore Nasal Oxygen Set**

- Super Smooth Kink resistant tubing ensure uniflow rate
- Designed for easy administration of oxygen and comfort of patient
- Soft twin prong nasal tips to ensure equal. volume of oxygen to both air passages.
- Star lumen main tube to avoid accidental blockage. soft funnel shaped connector facilitates easy connection to oxygen source.
- Length :-200 cm
- Size :- Adult, Pediatric & Neonatal
- Sterile, Disposable, Individually packed

## Cather Mount

- Suitable for connection between endotracheal tube and breathing circuits.
- Collapsible corrugated tubing being inert to all anesthetic gases and reagents. An elbow port is provided for easy suctioning without causing disturbance to breathing circuits.
- Provided with 22 mm standard female connector on both the ends with inner diameter of 15 mm.
- Sterile, Disposable, Individually packed

## Ventilator Circuit

- Ventilator circuit is the gas pathway connecting patients lung to the mechanical ventilator. It is essential that circuit should be highest quality in order to ventilate patient correctly, efficiency and safely.
- The corrugated tubes have a good flexibility and bending resistance, not meander, not broken, that mechanical ventilation in the process smooth gas supply.
- Breathing circuit uses standard connector that is simple convenience in clinic,
- Size :- Adult ,Pediatric & Neonatal
- Type: - Plain, With Single water trap, with double water trap, with or without port, with or without 'Y piece.
- Sterile, Disposable, Individually packed

# GASTROENTEROLOGY

## Ryle's Tube (Nasogastric Feeding Tube)

- For nasogastric introduction of nutrition and aspiration of intestinal secretion.
- Atraumatic, soft rounded, closed distal end with four lateral eye for efficient aspiration & administration.
- Super Smooth Kink resistant tubing ensure uniflow rate.
- Tube is marked at 50, 60 & 70cm from the tip for accurate placement. • With or without luer connector.
- Size FG 6 to 24
- Sterile, Disposable, Individually packed

## Stomach Tube

- Super Smooth Kink resistant tubing ensure uniflow rate.
- Atraumatic, soft rounded, closed distal end with four lateral eye for efficient aspiration & administration
- Tube is marked at 50, 60 & 70cm from the tip for accurate placement
- Size FG 6 to 24
- Sterile, Disposable, Individually packed

## Infant Feeding Tube

- For neonatal and pediatric nutritional feeding
- Super Smooth Kink resistant tubing ensure uniflow rate\_
- Atraumatic, soft rounded, closed distal end with two lateral eye for efficient aspiration & administration
- Proximal end is fitted with female luer mount for easy connection to feeding funnel or syringe.
- Also available in female flexible mount or luer lock.
- Tube Length:- 40 ,50 & 100 cm
- Size FG :- 4 to 10
- Sterile, Disposable, Individually packed

## Umbilical Catheter

- Designed for intermittent or continuous access to the umbilical artery or vein of newly born or premature infants.
- Super Smooth Kink resistant tubing ensure uniflow rate.
- Open distal end without lateral eyes, eliminates the chance of clot formation in the blind spaces.
- Proximal end is fitted with female luer mount for easy connection to I.V therapy equipment.
- Provided with graduation mark after every cm.
- Length:- 40cm
- Size:- 4, 5, 6 & 8 FG Sterile
- Disposable, Individually packed

## Umbilical Cord Clamp

- Simple & reopenable
- Blister Pack
- H.M Bag Pack

# SURGICAL GLOVES

- Latex Surgical Gloves Sterile Powdered
- Latex Surgical Gloves Sterile Powdered Free

## Special Features

- Lower modulus for better comfort
- Low powder content that minimizes skin irritation
- Thicker gloves for enhanced safety
- Size:6/6.5/7/7.5/8
- Sterilization : Ethylene Oxide
- Latex Surgical Examination Gloves
- Size:XS/S/M/L/X1
- Non Sterile Latex Free Examination Gloves Nitrile
- Latex Free Examination Gloves Vinyl

## MISCELLANEOUS

- Corrugated Drainage Sheet (Multi Channel Drainage System)
- Urine Culture Bottle (Size: 30 ml / 45 ml /60 ml)
- Disposable Cap, Disposable Face mask.
